

11th North German Biophysics Meeting

**Research Center Borstel, Manor House
12th January 2018, 10:00 am to 9:00 pm**

Margitta Dathe (FMP Berlin):

**Lipid phase separation and protein demixing -
mechanism of action of a small cyclic antimicrobial peptide**

Ulrich Keyser (University of Cambridge, UK):

Controlling and quantifying molecular transport through lipid membranes

Gerhard Schütz (University of Vienna, Austria):

The enigmatic role of lipids in membrane protein interactions

for registration send an Email to

tgutsmann@fz-borstel.de

**(please indicate if you want to present a poster or give a talk
and if you prefer vegetarian food)**

Registration deadline is January 5th
