

Molecular Biophysics

21-23 March 2024

Kloster Hünfeld, Germany

Registration and Abstract Submission 21 September 2023 – 21 February 2024

Join us for an interactive meeting with cutting edge presentations from experts from Germany and the UK on methodologies ranging from high resolution single molecule to structural analyses or simulations, and topics from DNA interactions to protein materials or membrane stability.

Invited speakers

- Sergi Garcia-Manyes, King's College London, UK
- Ana Garcia-Saez, Köln
- Christian Haering, Würzburg
- Sarah Harris, Leeds, UK
- George Heath, Leeds, UK
- Henrike Heise, Jülich / Düsseldorf
- Stefan Hell, Göttingen / Heidelberg
- Neil Kad, Kent, UK
- Dagmar Klostermeier, Münster
- Madhavi Krishnan, Oxford, UK
- Don Lamb, LMU München
- Meytal Landau, Technion, Israel / EMBL Hamburg
- Aneika Leney, Birmingham, UK
- Arwen Pearson, Hamburg
- Alice Pyne, Sheffield, UK
- Lynne Regan, Edinburgh, UK
- David Rueda, Imperial College London, UK
- Michael Schlierf, Dresden
- Reidun Twarock, York, UK
- Seraphine Wegner, Münster

Organised by:

German Biophysical Society, Section I: Molecular Biophysics

Ingrid Tessmer, University of Würzburg (Chair)

Charlotte Uetrecht, University of Siegen / Leibniz Institute of Virology
